Application/Control Number: 10/067,474

Art Unit: 1746

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims1 and 7, drawn to a method of cleaning, classified in class 8, subclass 148.
 - Claims 8-13, drawn to a cleaning apparatus, classified in class 68, subclass 5A.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions of GROUP II and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process such as one not requiring the blotting of the cleaned area with a towel.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. A telephone call was made to the office of STETINA BRUNDA GARRED & BRUCKER on august 20, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
- 5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
